

DGMD E-27 Assignment 5/Final project

Your name: Victor Amigo

1. Provide a link to the first page of your website: <http://amigovictor.com/custom-framework/>

My site looks the way I want on (choose one): Mac

With this browser (choose one): Chrome

CODE (75 points)

2. 6 column grid system

Using: Flexbox

Breakpoint values:

- 1.- min-width: 375px and max-width: 812px and pixel-ratio: 3
- 2.- min-width: 834px and max-width: 1112px and pixel-ratio: 2

Default grid Sass partial file name: `_flex.scss`

Starting line numbers: 5

Breakpoint #1 grid Sass partial file name: `_breakpoints.scss`

Starting line numbers: 3

Breakpoint #2 grid Sass partial file name: `_breakpoints.scss`

Starting line numbers: 22

3. Color scheme

Sass partial file name: `_variables.scss`

Sass line numbers: 9

4. Responsive navigation bar

Sass partial file name: `_navbar.scss`

Sass line numbers: 1

5. Examples of RWD 2.0 implemented

List 3 different examples of where you've made use of RWD 2.0 in your work.

Example: padding, typography, and grid columns would count.
However, padding, more padding, and yet more padding would NOT count.

Sass partial file name: `_variables.scss`
Sass line numbers example 1: 3

Sass partial file name: `_dimensions.scss`
Sass line numbers example 2: 1

Sass partial file name: `style.scss`
Sass line numbers example 3: 1

6. Two elements

Choose from: breadcrumb, button, card, form styling, hero unit/jumbotron, image styling, list styling, table styling, text styling elements, visibility classes.

a. Choice 1: card

Sass partial file name: `_card.scss`
Sass line numbers: 1

b. Choice 2: text styling

Sass partial file name: `_text.scss`
Sass line numbers: 1

Part 2: Documentation and examples (74 points)

7. Framework name: Amigo Framework

For each of the below items, provide a URL where the requested information is located.

8. Download button: <http://amigovictor.com/custom-framework/>

9. Installation: <http://amigovictor.com/custom-framework/>

10. Grid system install/examples: <http://amigovictor.com/custom-framework/pages/flex.html>

11. Nav bar install/examples: <http://amigovictor.com/custom-framework/pages/navigation.html>

12. Styled element #1 install/examples: <http://amigovictor.com/custom-framework/pages/card.html>

13. Styled element #2 install/examples: <http://amigovictor.com/custom-framework/pages/navigation.html>

14: Sass docs for colors: <http://amigovictor.com/custom-framework/pages/text.html>

15: Sass docs for fonts: <http://amigovictor.com/custom-framework/pages/text.html>

16: Sass docs for media query breakpoints: <http://amigovictor.com/custom-framework/pages/navigation.html>

17: Docs for anything else (list as many URLs as desired and describe what is located there):

18: Example starter page: <http://amigovictor.com/custom-framework/pages/sample.html>

ABOVE AND BEYOND (16 POINTS)

Identify what you did for Above and Beyond. Provide any relevant HTML, CSS, or Sass line number(s) and explanation of what you did. How many points do you think this was worth, and why? You can do more than one thing if you want.

If you add code features, add matching docs for full credit.
